## **ENVIRONMENTAL POLICY**

DR Sp. z o. o. operates based on the principle of sustainable development policy, which assumes conscious and appropriately shaped relationships between economic growth, care for the environment and human health. To achieve this goal, we comply with the requirements of the ISO 14001 standard.

In pursuit of this goal, we declare:

- Systematic actions to improve the condition of the natural environment, through continuous improvement of our activities aimed at reducing the negative impact on the environment, in particular:

- Appropriate waste management
- Minimized amounts of pollutants emitted into the air
- Rationalizing the use of materials for the production of products
- Preventing the possibility of environmental failures through constant monitoring

- Meeting applicable legal and other requirements to which the company is committed and which relate to identified environmental aspects by performing compliance assessments against them

This Environmental Policy applies to every level of management, is publicly available and is the basis for setting and reviewing environmental goals and tasks.

Owner of DR Sp. z o. o. certifies that the Environmental Policy is understandable, implemented and maintained at all levels of the organization, and the ISO 14001 Environmental Management System is constantly improved in order to improve the environmental effects of operations
